

WHERE DOES OUR WATER GO?

WASTEWATER IS COLLECTED

(dirty water) from homes and buildings

Wastewater travels in underground pipes to the wastewater treatment plant where it is

TREATED & CLEANED

STORM DRAINS

collect water from roads, driveways, lawns & sidewalks

STORM DRAIN

THIS RUNOFF IS NOT TREATED

and carries pollution like oil, trash, pet waste, fertilizer & pesticides to our rivers

MISSISSINEWA RIVER

WASTEWATER TREATMENT PLANT

TREATED WATER IS CLEAN

and released into the Mississinewa River

Marion Utilities

Remember...

NOTHING BUT RAIN IN THE STORM DRAIN
