## Water Activation Authorization

I hereby authorize Marion Utilities to turn service on at the following address:

---

The Utility usually requires someone to be present at the time of connection, however, this authorization requests the Utility to turn service on without anyone present. By signing this authorization, I am confirming that all water sources are shut off and any damage which may occur as a result of the connection of service will be my sole responsibility.

If the meter is running when the Utility turns on service, it will be turned back off and a **missed appointment charge of \$20.00** will be incurred. A new appointment with someone present will then be required to turn on service.
